BackCare® Advanced™ Recharge® Series

BackCare®

Advanced™ Recharge®

BackCare® Advanced™ Recharge® S4000

Jazz up with the blues, BackCare® Advanced™ Recharge® S4000 Super Pillow-top mattress is truly a sight to behold. It has a lush topper and is wrapped with eco-friendly bamboo-knitted fabric, 5-Zoned Coil System and Zoned Latex. These luxurious infills and fabrics add luxe to the BackCare® Advanced™ Recharge® S4000 mattress, ensuring it offers just the right amount of comfort and spinal support that your body needs each night.

BackCare® Advanced™ Recharge® S2000

BackCare® Advanced™ Recharge® S2000 Plush-top provides an eco-friendly bamboo knit pillow pad that is plush, soft, natural and luxurious. With the added benefit of Zoned Soy Foam and the patented 5-Zoned Coil System, the BackCare® Advanced™ Recharge® will amplify the value of sleep with the right lushness and support.

A Proud Legacy That Defines Your Good Night's Sleep

The crafting of every quality Simmons mattress stems from a relentless pursuit of providing a good night's rest for you, right from the start of our proud legacy in 1870.

- 1870.** Zalmon G Simmons built his first factory in Wisconsin, manufacturing wooden insulators & cheese boxes.
- 1876.** Mr Simmons switched to producing wire mattresses and set the pace to change the industry.
- 1925.** Simmons' top engineer John Franklin Gail designed the Pocketed Coil Spring machine which formed the basis of the Beautyrest® mattress.
- 1929.** Social luminaries Henry Ford, HG Wells, Thomas Edison, Guglielmo Marconi and George Bernard Shaw gave their unanimous endorsements for Simmons products.
- 1958.** Simmons introduced the first King and Queen size mattresses.
- 2000.** Simmons launched the industry's first non-flip mattress.
- 2002.** Simmons launched the industry's first negative-ion mattress.
- 2005.** Simmons launched the first-ever mattress with alternating cable coils.
- 2009.** Simmons created yet another milestone by combining the benefits of a Beautyrest® mattress with the Next-Generation Advanced Memory Foam to create the Beautyrest® NxG™ Series.
- 2011.** Simmons launched the e-ION CRYSTAL™ Series and the QR tag that garnered media attention.
- 2013.** Simmons launched the Beautyrest® Recharge™ Sleep System, combining AirCool™ Memory Foam, Beautyrest® Pocketed Coil® technology and proprietary AirCool™ Design to enable one to live life fully charged.

Beauty of Simmons® Pocketed Coil®

At the core of each Simmons® BackCare® Advanced™ Recharge® mattress is the renowned Simmons® Pocketed Coil® system. Each high-tensile steel coil is engineered into a barrel shape and pre-compressed to achieve additional resilience and greater spring effect. Individually wrapped with shrink- and tear-resistant, quick-dry Pockets, the coils are bonded in the middle using NASA Space Shuttle glue to allow independent movement with no friction and sound. This unique system delivers unsurpassed support, maximum conformability and minimum motion transfer, giving you undisturbed quality sleep while caring for the back.

Non Simmons Coil Original Simmons® Pocketed Coil®

Hi-Five! The 5-Zoned Coil Engineering

Simmons patented 5-Zoned Coil System is calibrated to match the 5 zones of the body - upper back, lumbar, hips, thighs and lower legs. These 5 parts are differently weighted and thus require differing amount of support. With 5-zoned options, ideal spinal alignment is achieved.

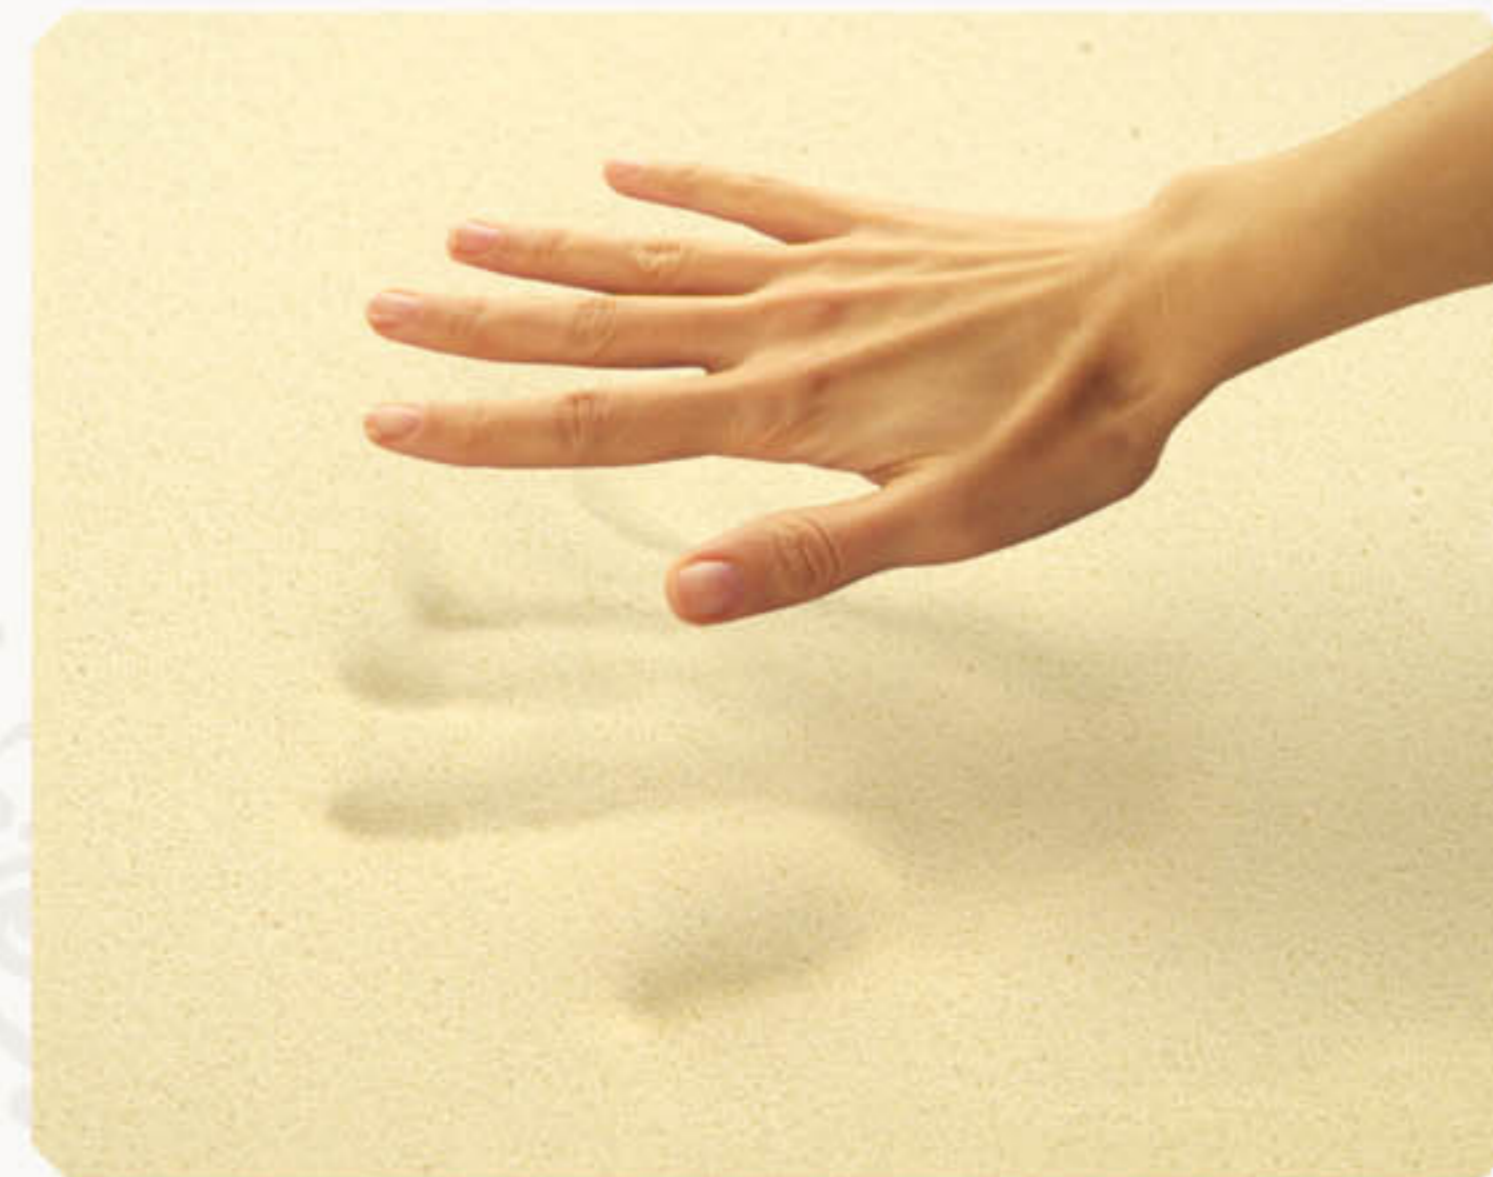

Zoned Latex

(Only applicable in BackCare® Advanced™ Recharge® S4000)

The Zoned Latex defines superior technology and comfort. Breathable latex foam promotes ideal sleeping temperature and the Simmons patented 5-Zoned system means that no part of your body is left out, ensuring you get the spinal support you need.

AirCool™ Memory Foam

Adapted from an open cell structure, the AirCool™ Memory Foam dissipates heat and keeps you at an ideal sleeping temperature throughout the night. The AirCool™ Memory Foam conforms to your body, providing much needed relief to pressure points and allowing freedom of movement for an unhindered sleep.

Zoned Soy Foam

(Only applicable in BackCare® Advanced™ Recharge® S2000)

Attuned to the different weighted zones of the upper back, lumbar, hips, thighs and lower legs, the Zoned Soy Foam minimizes stress on the spine. To create an optimum sleep, this construction is infused with eco-friendly soy foam made from natural bean extracts.

Bamboo Knitting

The eco-friendly bamboo knit absorbs moisture four times more than cotton, has anti-microbial properties and promotes excellent blood circulation.
