## Why Accessories Are Important To Your Sleep

To enjoy a good night's sleep, it is crucial that we have the right bed companions. Besides having a good quality mattress, accessories like pillows, mattress- & pillow-protectors are just as important in your entire bed set ensemble.

By combining good, quality mattress with good bedding accessories, your sleep quality can be enhanced and you can enjoy a more comfortable sleep.

"Bedding accessories are as important as your mattress"

## A Customised Pillow For Everyone

Simmons® pillows are customised to suit each person's preference of comfort, support and sleeping style. They are designed to accommodate the individual's unique head shape, weight and built.

A pillow without proper spinal alignment may affect your sleep quality. A right pillow provides proper head and neck support and renders a good spinal alignment while you sleep. A good pillow should also promote good airflow to help keep you cool while you are asleep.

The way we sleep may also affect the choice of our pillow. Check for comfort and firmness when trying out the pillows.

## NeckCare Pillows

Simmons® Beautyrest® NeckCare Pillow is the first pocketed coil pillow in the bedding industry. It has an air reservoir supported by pocketed coils, which are wrapped with fibre pockets that enhance durability. It is made with 100% premium cotton twill, tastefully trimmed with embroidered logo. It is also non-allergenic and bacteria-free, making it safe for all.

### Ideal Spinal Alignment

Designed to suit back, side or stomach (front/forward) sleepers. The varying degree of firmness keeps one comfortable and cradled in whatever the sleeping position is.

### Soft & Plump

Need not puff up your pillow to enjoy the plump and softness of your pillow.

### Instant Adaptability

Natural spinal alignment for a deserved ache-free sleep.

### Active Contour

The 60 individually-wrapped pocketed coils react independently and are able to adapt to any head shape, weight and movement.

### Controlled Microclimate

Air pockets inside each pillow is about 12 litres (2.96 gallons). When pressure is applied, air flow out releasing heat and moisture. The outward air flow helps maintain comfortable air climate.

### Non-Allergenic

Non-allergenic and bacteria-free materials and fabric.

### Certified Ergonomic

Tested and certified for its ergonomic properties for proper spine and neck alignment, for different body structures and various sleeping positions.

### Care Instructions

Simmons® Beautyrest® NeckCare Pillows cannot be washed. To keep pillows clean and sterile, use a pillow protector in addition to a pillow case. It is advisable to air your pillow and for hygiene purposes, change your pillows every 2 years.

Made in Italy 

There are 4 levels of firmness in the NeckCare Pillow range:

NeckCare 1 - Soft (1.23kg)

NeckCare 2 - Medium (1.32kg)

NeckCare 3 - Firm (1.42kg)

NeckCare 4 - Ultra Firm (1.50kg)

Size Approx: 48cm x 76cm (19-30")

## NextGen Pillows

Simmons® Beautyrest® NextGen Pillow comprises of the winning combination of the comfort and conformability of memory foam and the support and durability that only pocketed coil springs can provide. It also provides relief to pressure points especially to neck and shoulder muscles.

### Ideal Spinal Alignment

Designed to suit back, side or stomach (front/forward) sleepers. The varying degree of firmness keeps one comfortable and cradled in whatever the sleeping position is.

### Instant Adaptability

Natural spinal alignment for a deserved ache-free sleep.

### Controlled Microclimate

Air pockets inside each pillow is about 12 litres (2.96 gallons). When pressure is applied, air flow out releasing heat and moisture. The outward air flow helps maintain comfortable air climate.

### Memory Foam

The use of memory foam means the pillow is able to mould the head shape to reduce pressure point and is heat sensitive, thus able to react to heat and pressure, making your sleep more comfortable.

### Soft & Plump

Need not puff up your pillow to enjoy the plump and softness of your pillow.

### Active Contour

## Tips on How to Choose The Right Pillow

- Use the sample pillows available in the stores.
- Lie in your usual sleeping position.
- Check for comfort, firmness and height of pillow to ensure that it gives you good spinal alignment.

A good pillow should not be too high to make you feel strained at your shoulders or too low to give you a neck ache. The material should promote good air flow to help keep you cool.
